abstract:
One of the most important legal rules in the field of legal issues, the question of the interest and envy. Under this principle, the law on the legal and non-legal affairs Mhijvyn (ranging from minor, nerve, insane) with a parent or guardian honest and competent, makes decisions. The scope of the powers of this "but" in terms of materials and different legal provisions in different subjects and he must show determined on the basis of the obsolescence of the case and make a decision. The article tries to provide a comprehensive picture of the interest and the conditions in Islamic jurisprudence and legal texts, the most important and the most common issues (including legal and non-legal) Mhijvyn life as well as the scope of authority "but" They have studied in law put enamel.
